COMP90041

Programming and Software Development

WEEK 2 – Introduction, Access to Server
and First Java Program

Mohammed Atiq Mohammed Mashaq
Shaikh

>>>>>>Atiq<<<<<<<

atiq.shaikh@unimelb.edu.au

Intended Learning Outcomes

- ▶ Basics of JAVA
- ▶ Access to server
- ▶ Run 1st Java Program

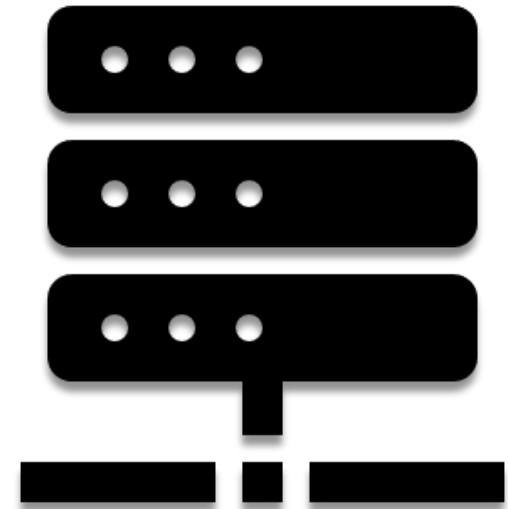

What is Java

- ▶ Java is a general purpose, class based, object oriented based (not purely) programming language developed By Sun Microsystem of USA in 1991
- ▶ Designed by James Gosling
Balaguruswamy, E. (2014). Programming with Java-A Primer. McGraw-Hill Professionals.

Access to Server

- ▶ Refer to step by step lab guide

First Java Program

```
FirstProgram.java ⌘
1  /**This is a simple hello world program
2      *
3      */
4  package com.unimelb.comp90041.week2;
5
6  /**
7      * @author Atiq
8      *
9      */
10 public class FirstProgram {
11
12     /**
13      * @param args
14      */
15     public static void main(String[] args) {
16         // TODO Auto-generated method stub
17         System.out.println("Hello World");
18     }
19
20 }
```
